Allen-Bradley 440H Hinge Switch Sprite 2NC Safety Solid Shaft 50x10mm M16 Entry

GUARD INTEROCKING

Component type	
Range	440H
Model	N/A
Product status	Existing

The Allen-Bradley Hinge Interlock Switches are hinge-actuated safety interlock switches designed to fit at the hinge point of guards. When triggered, the switches will close specific normally accessible doors or guards. Available in a variety of hinges such as Ensign 3, Sprite Miniature, and Rotacam Heavy-duty.
