440TMSRUE110G

AB 440T Prosafe Trapped Key Solenoid Release 24V DC 20A 2NO 2NC Key Code G

KEY EXCHANGE INTERLOCKS

Component type	
Range	440T Solenoid Release
Model	N/A
Product status	Existing

The Allen-Bradley 440T Trapped Key Solenoid Release Unit electrically isolates machinery to improve access safety. Consisting of a rotary power switch and solenoid, the key can be removed once an external signal is given to the internal solenoid locking mechanism. An indicator light signifies when power is applied to the solenoid and can be safely removed.
