817SPTC115

Allen-Bradley 817S Thermistor Monitoring Relay 115VAC

MOTOR PROTECTION

NHP Allen-Bradley

Component type	Relay for thermistor protection (PTC)
Range	817
Model	N/A
Product status	Existing

The Allen-Bradley Bulletin 817S Thermistor Monitoring Relays protects equipment from over temperature conditions and offer supplementary motor protective functions that are easily added and applied to motor control circuits. Available in 24/48V DC, 115V AC and 230V AC and feature Positive Temperature Coefficient input, automatic reset and indicator lights.

ELECTRICAL	**Reset function input**	Yes
	Reset function automatic	Yes
	External reset possible	Yes
CONSTRUCTION	**IP rating**	IP20
MECHANICAL	**Test button**	Yes
DIMENSIONS	**Height**	80 mm
	Width	22.5 mm
	Depth	99.5 mm
