LTHS60ACHUTE

Microelettrica Contactor Arc Chute LTHS60 Pole

ELECTRICAL ENGINEERING PRODUCTS

Component type	Accessories/spare parts for low-voltage switch technology
Range	Contactor
Model	N/A
Product status	Existing

The Microelettrica contactors are designed for railway rolling stock and fixed applications offering high reliability and low maintenance. High performance is achieved through a strongly optimised design, ensuring a robust dimensioning of components with reduced weight and cost savings while fully containing the electric arc inside the arc-chute.

CONSTRUCTION

Spare part	Yes
Type of accessory/spare part	Arc explosion chamber (arc chute)
