1) Input for gas or water metering available
 2) Replace ... with '23' for 3x 90A split core CT's; '33' for 3x 150A split core CT's; '53' for 3x 250A split core CT's
 3) Solid core current transformers to suit EM270 - TCD1X160200CMX (160A primary); TCD2X250200CMX (250A primary); TCD3X630200CMX (630A primary)
 4) Split core current transformers to suit EM271 - TCD1M1080CMX (100A primary); TCD2M2080CMX (200A primary); TCD3M4080CMX (400A primary)
 5) Communication module part number needs to be ordered along with base multi-function meter. Example: Want WM40 meter with RS485 Modbus RTU = WM40AV53H and MC485232
 7) Replace "xxx" with either 030, 050, 100, 200, 300 or 500 for desired cable length in cm.
