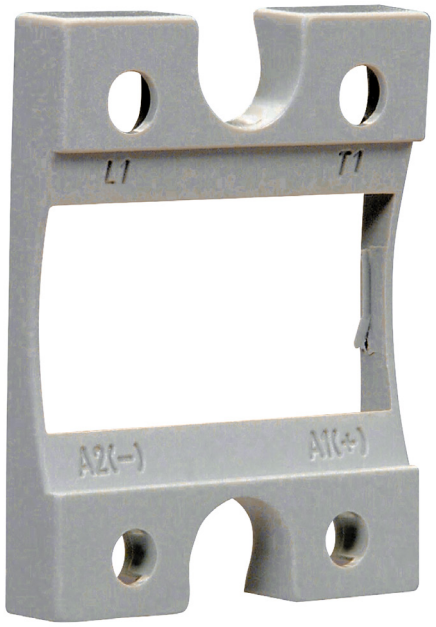
RMIP20

Carlo Gavazzi Solid State Relay Cover IP20 for RS RM SSR

GENERAL PURPOSE RELAYS



Component type	Accessories/spare parts for low-voltage switch technology
Range	Solid State Relay
Model	N/A
Alternative	CALL FOR ALTERNATIVE

The Carlo Gavazzi Solid State Relays (SSR) are ideal for a wide range of applications including AC and DC switching, 1-phase and 3-phase and temperature control. With fast switching capability, they are the most reliable switching components for process accuracy. A wide range of accessories available such as heatsinks, terminal adaptors, protection covers, communication and thermal interfaces.

DIMENSIONS

Height	28 mm
Width	42.4 mm
Depth	21.5 mm
