

# Demo Case

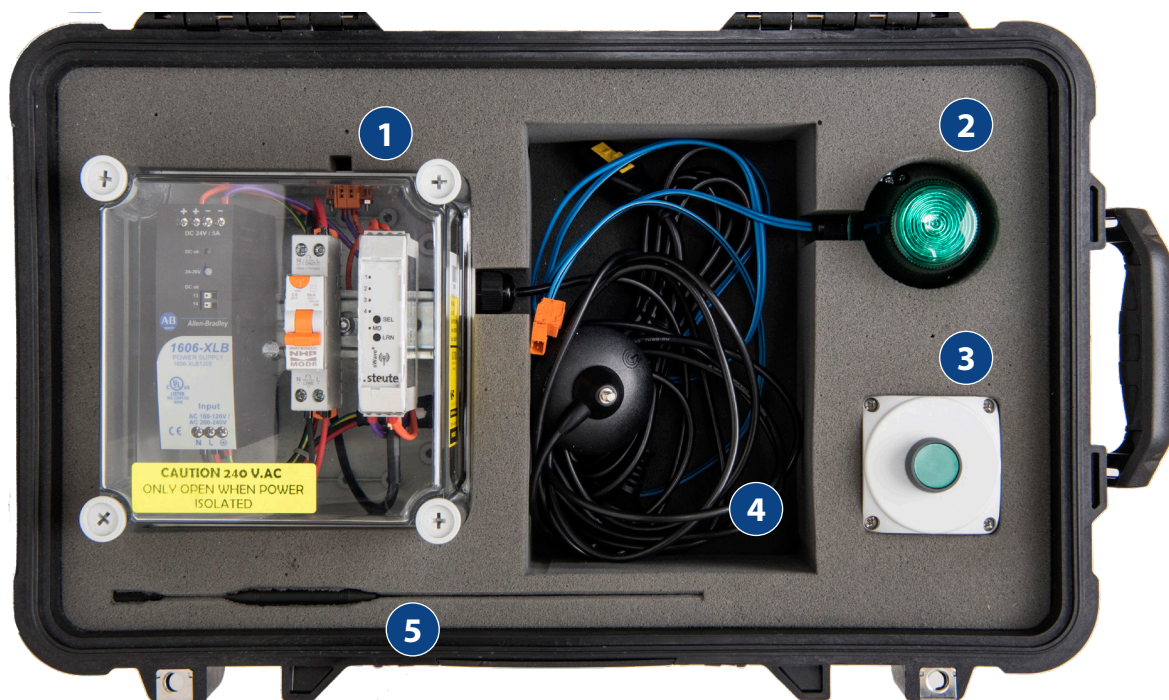

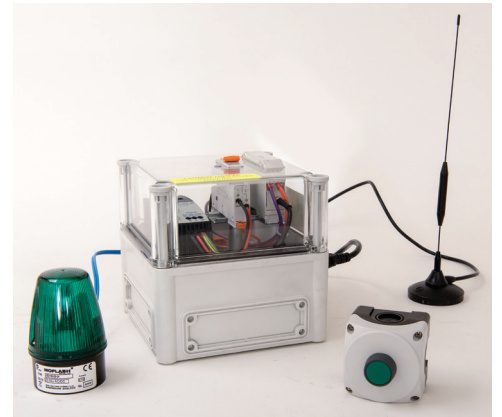

## Steute Wireless with Moflash LED100 Beacon

This demo case has been designed with robust demonstration in mind. Using the Steute Wireless switch gear, you will be able to test for product reliability in many different applications and at many different distances using our latest product from Moflash, the LED100 Beacon, as an indicator.

The beacon is plugged into the side of the supply box and a side entry cable allows you to mount the beacon on any surface for flexible visibility during testing. Please note that side entry has been used for the purpose of this demo only and we suggest bottom entry as provisioned by the product.

An antenna has been included to demonstrate the potential of the product to transmit signals over large distances and through obstructions.

Pushbutton provided uses energy harvesting technology. An internal electrodynamic energy generator that converts mechanical energy (actuating the pushbutton) into electrical energy, emitting a signal strong enough for the wireless receiver to listen to.

- 1 Supply / Receiver Box
- 2 Moflash LED100 Beacon
- 3 Electrodynamicly Operated Pushbutton
- 4 Wire Pit (Antenna base, power and beacon cable)
- 5 Antenna

## Demo Case Parts List

Part Number	Description
RFBF741	RF PUSHBUTTON ENCLOSURE PLASTIC 1 HOLE 22.5mm
RFBF74RT	RF PUSH BUTTON OPERATOR HEAD RT TYPE W/MULTI-COLOR CAPS
RFBF74ACTUATOR	RF PUSH BUTTON ACTUATOR 915MHz PLASTIC
RFRXSW9154S	RF RECEIVER 915MHz 24V DC 4CH RELAY & 2.5dB ANTENNA
RFANTSW915	RF ANTENNA 915MHz 3.6M CABLE 5DB GAIN
MOLED10002G	BEACON ECO 8 LED STATIC/FLASH 8-30V AC/DC GREEN
