|----------------|-----------------------------|
| Component type | Multiple beam light curtain |
| Range | 440L Curtains |
| Model | N/A |
| Product status | Existing |

The Allen-Bradley 440L Light Curtains are presence sensing devices ideal for use on hazardous machinery. Fitted with Type 4 safety light curtains and offering point of operation, perimeter and access guarding. Ideal for a wide range of machine guarding applications via connection to ArmorBlock Guard IO modules the output Signal Switching Device (OSSDs) operates over a DeviceNet safety network.
