Allen-Bradley Armor PowerFlex 35 VSD 2.2Kw 6A Standard Square Quick Connect Internal 24V DC

SMALL AND MID RANGE DRIVES

Component type	
Range	Armor PowerFlex
Model	N/A
Product status	Existing

The Allen-Bradley Armor PowerFlex drives are designed to meet demanding applications in harsh environments with on-machine variable speed drives providing a decentralised solution to reduce installation time and cost in motor control applications. Include integrated Gigabit dual-port EtherNet/IP, various motor control options, flexible mounting and available in hardwired or networked.
