by ROCKWELL AUTOMATION

STACK LIGHTS

Component type	Optical module for signal tower
Range	855E
Model	N/A
Product status	Existing

The Allen-Bradley 855E range of 50mm stack lights are highly visible, multi-status indicators for critical machinery and process based applications. Suitable for both indoor and outdoor settings with easy wiring and tool free assembly via top mounted terminal blocks. Available in a range of light and sound modules with multiple mounting options including surface, vertical and pole.

ELECTRICAL	Function	Steady
	Voltage type	AC/DC
CONSTRUCTION	Colour	Amber
	Degree of protection (IP)	IP65
	Colour housing	Black
PHOTOMETRIC	Lamp type	None
	Luminous flux	0.0 lm
DIMENSIONS	Outer diameter	52.0 mm
