

CEP9EIO43240

S+S CEP9 IO Control Module 4 Input 3 Output 240VAC

MOTOR PROTECTION

sprecher+schuh

Component type	Extension module for motor management device
Range	CEP9
Model	N/A
Product status	Existing

The Sprecher + Schuh CEP9 Electronic Overload Relays are the newest technology for overload protection. The modular design consists of sensing, control and communications modules and provides diagnostic information with simplified wiring, and integration into Logix technology. They are the ideal overload for motor control applications in an automation system.

ELECTRICAL

Rated control supply voltage U_s at AC 50HZ 220-240 V

Rated control supply voltage U_s at AC 60HZ 220-240 V

Number of outputs, with contact 3

CONSTRUCTION

Model Control device

Number of digital inputs 4

IP rating IP20
