

CHCUS

NHP Terasaki TemBreak HC High Current CHC Universal Spacer

Component type	Accessories/spare parts for low-voltage switch technology
Range	HC
Model	N/A
Product status	Existing

NHP's HC Moulded Case Circuit Breaker Chassis system offers an efficient and reliable solution for mounting MCCBs in groups, as part of a larger power distribution system. Suits TemBreak PRO thermal magnetic and electronic MCCBs up to 1250A and includes double and single-sided options. Features rear connection for breakers for additional safety, robust construction and low power consumption.
