

CPTPSM440400IR

Cirprotect PSM Surge Protection Device Type 2 3 Phase L-L & L-N & N-PE I_{max} 40kA 400Vac

Component type	Surge protection device for power supply systems
Range	PSM
Model	N/A
Product status	Existing

The Cirprotect PSM Surge Diverters offer protection for electrical power supply networks against surges and overvoltages. Suitable for the protection of power supply systems with a rated voltage up to 690V AC with capability to handle a surge current of 40kA. Easy to install with a DIN rail plug-in format and extremely durable, delivering a service life of up to 20 years.
