

D1014D

GMI Intrinsicly Safe Barriers GMI Ex i Isolator AI 2 Channel 4 to 20mA Sink Source Inout

Component type	Isolation amplifier
Range	D Series
Model	N/A
Product status	Existing

GM International's Intrinsicly Safe Isolators provide energy limitations to protect from explosion risks while guarantying continuous operation and effectiveness of the safety layer. A wide range of intrinsicly safe galvanic isolators compliant with IEC61508 and IEC61511 standards, these isolators represent a milestone in the level safety through the entire instrumented system lifecycle.

ELECTRICAL

Type of electric connection

Screw connection

CONSTRUCTION

Degree of protection (IP)

IP20
