ProSoft CompactLogix InRack IEC60870 5 101 Slave Interface

<b>Component type</b>	PLC communication module
<b>Range</b>	CompactLogix InRack Comms
<b>Model</b>	N/A
<b>Alternative</b>	NO ALTERNATIVE ITEM

The ProSoft CompactLogix InRack Communication Module allows for easy and secure connection between devices within a single rack or chassis. It expands the capabilities of the CompactLogix system, improving operation performance and providing flexible connectivity options via various communication protocols, including Modbus TCP, Modbus Serial, Profibus and Linux development module.
