

PLX31EIPASCI

ProSoft PLX31 Gateway Ethernet/IP to ASCII

Component type	Fieldbus, decentr. periphery - communication module
Range	Stand-alone
Model	N/A
Product status	Existing

The ProSoft Technology stand-alone DIN rail-mounted industrial gateways provide an easy to use solution to read or write data from devices using different protocols. All Prosoft gateways are equipped with ProSoft Discovery Service (PDS) software which automatically detects the default IP address without being on the same subnet, saving setup time and enabling faster configurations of our networks

ELECTRICAL	Supply voltage DC	10 - 36 V
	Voltage type of supply voltage	DC
COMMUNICATION	Supporting protocol for EtherNet/IP	Yes
CONSTRUCTION	Degree of protection (IP)	IP20
	Width	50.5 mm
DIMENSIONS	Height	136.7 mm
	Depth	111.3 mm
