

PQSVGC20030GXFFCX1A

Delta SVG/APF/Hybrid IP30 Cabinet 2x 100kVar/A Power
Modules Front Connect Grey

Component type	Energy management controller
Range	TPFC
Model	N/A
Product status	Existing

The Delta Hybrid system is a modular solution that combines the APF and SVG systems to provide dedicated displacement and distortion power correction in a single cabinet. Providing a high harmonic filtering rate (>98%) for harmonics from the 2nd to the 50th order, with a fast response time (<20 ms) the hybrid serves as an all-in-one solution to boost the true power factor of an electrical network.
