

XPSSL80021U

NHP Terasaki TemBreak PRO TemWay XBP Chassis Single Sided LH 800A 3Phase 21 Way

Component type	Distributor assembly busbars
Range	XBP
Model	N/A
Product status	Existing

This Moulded Case Circuit Breaker (MCCB) chassis system is an efficient and reliable solution for mounting MCCBs in groups as part of a larger power distribution system. TemWay XBP chassis busbar systems are available in single and double-sided configurations, suitable for TemBreak PRO A250, P250 and ZS250 MCCBs. The XBP includes fully insulated 800A main busbars and top and bottom feed options.
