141ATR4

Allen-Bradley 141A 01485 Busbar Support 4Pole With Internal Holes

STARTER MOUNTING SYSTEMS

Component type	Busbar support
Range	141A
Model	N/A
Product status	Existing

The Allen-Bradley Bulletin 141 Modular Control System (MCS) provides several different mounting solutions for IEC load feeders, including preconfigured circuit breaker modules for feeding and protecting a busbar. The system features a plug-and-play design, ideal for applications up to 100A with touch-safe plastic housing and straightforward snap-in components allowing for automatic connection.

ELECTRICAL	**Number of poles**	4
DIMENSIONS	**Busbar distance**	10 mm
