Allen-Bradley 141A Panel Mount Module 228 x 54mm

STARTER MOUNTING SYSTEMS

Component type	Busbar adapter
Range	141A
Model	N/A
Product status	Existing

The Allen-Bradley Bulletin 141 Modular Control System (MCS) provides several different mounting solutions for IEC load feeders, including preconfigured circuit breaker modules for feeding and protecting a busbar. The system features a plug-and-play design, ideal for applications up to 100A with touch-safe plastic housing and straightforward snap-in components allowing for automatic connection.

ELECTRICAL	**Type of electric connection**	None
CONSTRUCTION	**Mounting rail armament**	2 mounting rails
	Version as busbar adapter	No
MECHANICAL	**Suitable for DIN rail (top hat rail) mounting**	Yes
DIMENSIONS	**Width of the adapter**	54 mm
	Rail width	35 mm
	Height	228 mm
	Busbar distance	60 mm
	Max. busbar thickness	10 mm
