

1440REX0004RD

Allen-Bradley 1440 XM Condition Monitoring 441 Expansion Relay Module

Component type	Extension module for vibration control unit
Range	1444 Module
Model	N/A
Product status	Existing

Allen-Bradley 1444 Dynamix modules are designed to increase monitoring system capability while providing real-time data analytics. Available in measurement, speed, relay, and analogue output modules and terminal bases.

ELECTRICAL

Supply voltage DC

24 V
