193ESMIG100AP

Allen-Bradley E300 Sensing Module Current and Ground Fault 10 to 100A Pass Through

MOTOR PROTECTION

NHP Allen-Bradley

Component type	Motor management device
Range	E300
Model	N/A
Product status	Existing

The Allen-Bradley E300 (networked) Electronic Overload Relays are the newest technology for overload protection. The modular design consists of sensing, control and communications modules and provides diagnostic information with simplified wiring, and integration into CCW. They are the ideal overload for motor control applications in an automation system.

ELECTRICAL	**Current detection module**	Yes
	Rated operation current Ie	10-100 A
	Integrated earth fault protection	Yes
	Voltage detection module	No
	Rated operation frequency	50-60 Hz
	Max. rated operation voltage Ue AC	1000 V
CONSTRUCTION	**Modular version**	Yes
	Type of connection system	Through-feed technique
	IP rating	IP20
DIMENSIONS	**Width**	71.6 mm
	Height	106.3 mm
	Depth	110.5 mm
