

NHP

The all-new Delta DC Wallbox 50kW

NHP is excited to present one of the world's slimmest and most practical electric vehicle chargers in Australia.

The all-new Delta DC Wallbox offers a compact design, perfect for wall mounting. A designer floor mounted stand is also available, which has a footprint of a mere 0.16m².

The Delta DC Wallbox 50kW features dual CCS2 plugs as standard, allowing you to charge one vehicle at up to 50kW, or two vehicles at up-to 25kW. To further enhance the flexibility, 50kW Wallbox is available both in 4m and 7m cable lengths.

Speak to NHP's EV team today on the benefits of this next generation charger. NHP also offers great value extended warranty, service and maintenance packages which will keep your charger running year after year.

Floor mounting stand:
EIDWSTAND2C

- Compact wall or floor mounted DC charger
- Available in 50kW
