193ESMIG100AT

Allen-Bradley E300 Sensing Module Current and GF 10 to 100A DIN Mount

MOTOR PROTECTION

Component type	Motor management device
Range	E300
Model	N/A
Product status	Existing

The Allen-Bradley E300 (networked) Electronic Overload Relays are the newest technology for overload protection. The modular design consists of sensing, control and communications modules and provides diagnostic information with simplified wiring, and integration into CCW. They are the ideal overload for motor control applications in an automation system.

ELECTRICAL	**Current detection module**	Yes
	Rated operation current Ie	10-100 A
	Integrated earth fault protection	Yes
	Voltage detection module	No
	Rated operation frequency	50-60 Hz
	Max. rated operation voltage Ue AC	690 V
CONSTRUCTION	**Modular version**	Yes
	Type of connection system	Separate positioning
	IP rating	IP20
DIMENSIONS	**Width**	71.6 mm
	Height	124 mm
	Depth	110.5 mm
