# 35S6D3P011

**Allen-Bradley Armor PowerFlex 35 VSD Advanced Safety 2.2Kw 6A Conduit Brake Internal 24V DC**

SMALL AND MID RANGE DRIVES

| Component type | |
|---|---|
| **Range** | Armor PowerFlex |
| **Model** | N/A |
| **Product status** | Existing |

The Allen-Bradley Armor PowerFlex drives are designed to meet demanding applications in harsh environments with on-machine variable speed drives providing a decentralised solution to reduce installation time and cost in motor control applications. Include integrated Gigabit dual-port EtherNet/IP, various motor control options, flexible mounting and available in hardwired or networked.
