440KA21006

Allen-Bradley 440K Actuator 90 Degree for Elf Cadet3

SAFETY INTERLOCK SWITCHES

Component type	
Range	440K Elf Mini
Model	N/A
Product status	Existing

The Allen-Bradley Elf Miniature Tongue Interlock Switch is compact, reliable, and easy-to-use to ensure safety of personnel and equipment in a wide range of industrial applications. A compact unique miniature housing design makes it ideal for smaller machines such as printers, copiers, and domestic machinery which traditionally have been unable to use safety interlocks due to space restrictions.
