442GMABAMPL

Allen-Bradley 442G MAB Mounting Plate Lock Module

GUARD INTEROCKING

Component type	Accessories/spare parts for position switches
Range	442G
Model	N/A
Product status	Existing

The Allen-Bradley 442G Multifunctional Access Box is an integrated and unique safeguarding solution combining guard locking and access control. Ideal for full-body applications where guard doors require higher holding force and greater tolerance to guard door misalignment, safeguarding the area in an emergency. A choice of operator controls offers flexibility to meet a variety of applications.
