AB 48CR Code Reader Adjustable Bracket for 48CR Code Reader

IDENTIFICATION DEVICES

Allen-Bradley

Component type

Range 48CR

Model N/A

Product status Existing

The Allen-Bradley 48CR Code Readers are the smallest industrial code readers on the market. They can read 1D, 2D, Direct Part Marked (DPM) codes, incomplete symbols and barcodes. Ideal for use in automotive, packaging, material handling, assembly, pharmaceutical, food and beverage industries and are configurable via the Studio 5000 Logix Designer® or the embedded Web Connect visual browser.
