48CRCB16R400E8

AB 48CR Code Reader 1D/2D Standard Fixed Focus 400mm LS 16mm EtherNet or IP 4 Pin DC Micro RED

IDENTIFICATION DEVICES

Component type	
Range	48CR
Model	N/A
Product status	Existing

The Allen-Bradley 48CR Code Readers are the smallest industrial code readers on the market. They can read 1D, 2D, Direct Part Marked (DPM) codes, incomplete symbols and barcodes. Ideal for use in automotive, packaging, material handling, assembly, pharmaceutical, food and beverage industries and are configurable via the Studio 5000 Logix Designer® or the embedded Web Connect visual browser.
