5202MNETASCII4

ProSoft Gateway Modbus TCP/IP to ASCII Generic Serial 4 Port

GATEWAYS AND TRANSLATORS

Component type	Fieldbus, decentr. periphery - communication module
Range	Stand-alone
Model	N/A
Product status	Existing

ProSoft Technology stand-alone DIN rail-mounted industrial gateways provide an easy-to-use solution to read or write data from devices using different protocols. All ProSoft gateways are equipped with ProSoft Discovery Service (PDS) software which automatically detects the default IP address without being on the same subnet, saving setup time and enabling faster network configuration.

ELECTRICAL	**Supply voltage DC**	18-36 V
	Voltage type of supply voltage	DC
COMMUNICATION	**Supporting protocol for EtherNet/IP**	Yes
DIMENSIONS	**Width**	52.5 mm
	Height	132 mm
	Depth	114.8 mm
