

FR22GG50V100

Mersen FR Cylindrical Fuse 22 x 58mm 500V AC 100A

|                |                   |
|----------------|-------------------|
| Component type | Cylindrical fuse  |
| Range          | Cylindrical Fuses |
| Model          | N/A               |
| Product status | Existing          |

NHP's Cylindrical Fuses offer a reliable and efficient solution for protecting electrical systems against overcurrent and short-circuit faults. Our fuses are designed to ensure maximum safety and protection for your equipment, with a high interrupting rating that can withstand even the most severe electrical surges.

ELECTRICAL

|                      |                                               |
|----------------------|-----------------------------------------------|
| Utilization category | gL/gG (cable protection/equipment protection) |
| Breaking capacity AC | 120 kA                                        |
| Breaking capacity DC | 100 kA                                        |
| Voltage type         | AC/DC                                         |
| Rated current        | 100 A                                         |
| Rated voltage AC     | 500 V                                         |
| Rated voltage DC     | 250 V                                         |
| Power loss           | 8.3 W                                         |
