Eishin International IPS Pressure Switch Industrial 40 to 1000kPa 1 Changeover Relay Output

ELECTRICAL ENGINEERING PRODUCTS

Component type	Pressure switch
Range	Pressure Sensor
Model	N/A
Product status	Existing

The Eishin International Electromechanical Pressure switches are designed to automatically sense a change in pressure via a sensing element such as a diaphragm, bellows or piston. Available in compressor, general purpose and industrial purpose pressure switches.

ELECTRICAL	**Number of auxiliary contacts as change-over contact**	1
CONSTRUCTION	**IP rating**	IP65
MECHANICAL	**Max. operating pressure**	145 hPa
	Max. test pressure	217.55 bar
	Connection	Internal thread conical (NPT)
	Thread size	1/4 inch
