

MVI94ADM

ProSoft Flex I/O C Programmable Application Development
Module 2 x RS232 and RS422 and RS485

Component type	PLC analogue/digital I/O-module
-----------------------	---------------------------------

Range	Flex IO Comms
--------------	---------------

Model	N/A
--------------	-----

Alternative	CALL FOR ALTERNATIVE
--------------------	----------------------

The ProSoft Flex I/O Communication modules for Rockwell Automation FLEX I/O and FLEXLogix (1794) processors. All ProSoft Technology FLEX I/O modules are backplane compatible with the processor. The interface modules allow FLEX processors to communicate with a variety of non-Rockwell protocols or networks.
