PLX31EIPMBTCP

ProSoft PLX31 Gateway Ethernet/IP to Modbus TCP/IP

GATEWAYS AND TRANSLATORS

Component type	Fieldbus, decentr. periphery - communication module
Range	Stand-alone
Model	N/A
Product status	Existing

ProSoft Technology stand-alone DIN rail-mounted industrial gateways provide an easy-to-use solution to read or write data from devices using different protocols. All ProSoft gateways are equipped with ProSoft Discovery Service (PDS) software which automatically detects the default IP address without being on the same subnet, saving setup time and enabling faster network configuration.

ELECTRICAL	Supply voltage DC	10-36 V
	Voltage type of supply voltage	DC
COMMUNICATION	Supporting protocol for EtherNet/IP	Yes
CONSTRUCTION	IP rating	IP20
DIMENSIONS	Width	50.5 mm
	Height	136.7 mm
	Depth	111.3 mm
