PSQS15110783

ProSoft PSQ Gateway Ethernet/IP or DF1 to Lonworks Quickservers

GATEWAYS AND TRANSLATORS

Component type	
Range	Stand-alone
Model	N/A
Product status	Existing

ProSoft Technology stand-alone DIN rail-mounted industrial gateways provide an easy-to-use solution to read or write data from devices using different protocols. All ProSoft gateways are equipped with ProSoft Discovery Service (PDS) software which automatically detects the default IP address without being on the same subnet, saving setup time and enabling faster network configuration.
