

TM2GHP5

IME TM2 Transducer Input Voltage Output 4 to 20mA Auxiliary
150V DC

CURRENT TRANSFORMERS
AND TRANSDUCERS

IME

Component type	Current transformer
Range	Transducer
Model	N/A
Alternative	CALL FOR ALTERNATIVE

The IME transducers provide a comprehensive range of transducers for AC and DC voltage and current as well as fully programmable units. With options for scalable output AC current transducer and all-in-one current transformers and transducers, IME transducers can fit a wide range of applications.

ELECTRICAL	Secondary rated current	0.02 A
	Accuracy class	0.5
	Calibrated	Yes
CONSTRUCTION	Material housing	Polycarbonate (PC)
	Model	Through-feed current converter
	With shock protection	Yes
	Number of primary inputs	1
ENVIRONMENT	Storage temperature	-25...70 °C
