TM3IH10

IME TM3 Transducer Input 1A Output 4 to 20mA Auxiliary 20 to 150V DC

CURRENT TRANSFORMERS AND TRANSDUCERS

Component type	Current value transformer
Range	Transducer
Model	N/A
Product status	Existing

IME transducers provide a comprehensive range of transducers for AC and DC voltage and current as well as fully programmable units. With options for scalable output AC current transducers and all-in-one current transformers and transducers, IME transducers can fit a wide range of applications.

ELECTRICAL	**Initial value measuring range current**	0 A
	End value measuring range current	1.2 A
	Type of analogy output	Other
	Operating voltage	20150
	Frequency rated current	50 Hz
	With switching output	No
CONSTRUCTION	**Mounting method**	DIN rail (top hat rail) 35 mm
	Integrated configuration function	Yes
