Allen-Bradley E300 IO Module 3 In 1 Out Analog E300 Expansion

MOTOR PROTECTION

Component type	Extension module for motor management device
Range	E300
Model	N/A
Product status	Existing

The Allen-Bradley E300 (networked) Electronic Overload Relays are the newest technology for overload protection. The modular design consists of sensing, control and communications modules and provides diagnostic information with simplified wiring, and integration into CCW. They are the ideal overload for motor control applications in an automation system.

ELECTRICAL	**Input for analogue temperature sensor**	Yes
CONSTRUCTION	**Model**	Analogue module
	Number of analogue inputs	3
	Number of analogue outputs	1
	IP rating	IP20
