Socomec INOSYS Bridging Bar - F3 (Qty 2)

LOAD BREAK SWITCHES

Component type	Accessories/spare parts for low-voltage switch technology
Range	INOSYS DC
Model	N/A
Product status	Existing

The Socomec INOSYS DC Load Break Switches have been engineered for the most demanding DC and PV applications, in compliance with AS 60947.3:2018 and DC-PV2. Complete non-polarisation of the switch allows for consistent wiring configurations, and clear contact indication ensures isolation can easily be confirmed. The stable ON/OFF position ensures complete disconnection and isolation.

CONSTRUCTION

Accessory	Yes
Type of accessory/spare part	Connecting bridge
