

A08250380OBH

ProSoft Antenna Omnidirectional 3dBi Mount Type N Jack with RP SMA Connector 5 Feet 750MHz to 2.7GHz

Component type

Range Wireless Hotspot

Model N/A

Product status Existing

Providing a secure wireless solution for plant-floor, SCADA automation, process control systems and mobile worker Wi-Fi infrastructure, the ProSoft Technology Fast Industrial Hotspot (RLX2-IHNF) is the ideal choice for indoor and outdoor safety applications. Operating in the 2.4 or 5 GHz bands, including DFS channels, the radio provides robust communications in harsh environments.
