HSPANT013M

Ewon Flexy Remote Access Antenna 3G 5dbi SMA Magnetic Base 824 to 2170MHz

ELECTRICAL ENGINEERING PRODUCTS

Component type	
Range	Flexy
Model	N/A
Alternative	LTEANT013M

The eWon Flexy is a multipurpose internet data gateway that has been designed to enable remote monitoring and predictive maintenance thanks to the Talk2M VPN industrial cloud service. It is the perfect option for machine builders after a cost effective, secure data acquisition and logging solution where routing capability is not required.
