193EIOGP22240

Allen-Bradley E300 Control Module External Ground Fault Sensing and PTC 2 In 2 Out 240V AC

MOTOR PROTECTION

NHP Allen-Bradley

Component type	Extension module for motor management device
Range	E300
Model	N/A
Product status	Existing

The Allen-Bradley E300 (networked) Electronic Overload Relays are the newest technology for overload protection. The modular design consists of sensing, control and communications modules and provides diagnostic information with simplified wiring, and integration into CCW. They are the ideal overload for motor control applications in an automation system.

ELECTRICAL	**Rated control supply voltage Us at AC 50HZ**	220-240 V
	Rated control supply voltage Us at AC 60HZ	220-240 V
	Number of outputs, with contact	2
	Input for earth fault detection	Yes
	Input for thermistor connection	Yes
CONSTRUCTION	**Model**	Control device
	Number of digital inputs	2
	IP rating	IP20
