2080RPL48RTB

Allen-Bradley Micro800 48 Point Replacement RTB for M820/ M830/M850

MICRO CONTROL SYSTEMS

Component type	
Range	Micro 800
Model	850
Product status	Existing

Allen-Bradley Micro800 controllers offer both a scalable and robust micro control solution for small to large standalone applications and allow for customisation and flexibility. You can elect from a wide range of plug-in modules to match your requirements and make use of Connected Components Workbench™ software to help reduce machine design time and maximise productivity.
