

SHDWWISENIN1

Carlo Gavazzi Smart Dupline Wireless Window Sensor plus 1 Digital Input Contact

Component type	Physical sensor for bus system
Range	Level Sensor
Model	N/A
Alternative	NO ALTERNATIVE ITEM

The Carlo Gavazzi Level Sensors are designed to detect conductive and non-conductive liquids, granulates, grains and plastics in both on/off control or continuous monitoring functions. Ideal for applications requiring level control in wells, municipal water systems, protection of pumps, grain elevators, feed conveyors and vacuum delivery systems in the plastics industry.

ELECTRICAL	Other bus systems	Dupline
CONSTRUCTION	Sensor type	Infrared and lux
